

# Welcome To REAL TALK

We are grateful that you are embracing REAL TALK at your church! We truly believe that new levels of breakthrough, freedom, transformative healing, and authentic connections are coming, through this program. REAL TALK was created for your entire church, from top leadership down to kindergarteners. It is designed to systemically equip and awaken the Church from secrets and scandal while empowering children to speak up if they are unsafe. It provides a new framework, methodology, and language for discussing issues many in faith have shied away from.

Here are a few important things to note as you roll out REAL TALK:

- **This is a train-the-trainer program.** The Free With E team will be training your lead trainers in each curriculum. They will then train their individual teams in the material, and roll REAL TALK out within your church. This creates scalability and sustainability to continue REAL TALK in your church.
- **We provide a national network of next steps.** REAL TALK may awaken deeply-rooted issues or past traumas which require specialized support. Some may feel more comfortable seeking this support anonymously, through a third party. REAL TALK acts as a catalyst to normalize transparency, authenticity and provides protection within your faith community's culture. Next steps are vital! To connect individuals with the best resources to meet their needs, contact [info@freewithe.com](mailto:info@freewithe.com).
- **You are not alone as you roll out this unique program!** The Free With E team hosts monthly calls for REAL TALK trainers and leaders to gain support, ask questions, and more. To join, email [info@freewithe.com](mailto:info@freewithe.com).
